

HB2569 - Elections Administration Private Monies Prohibited

Sponsor: Arizona Deserves Better

petition language:

"This petition seeks to refer HB 2569 to the ballot for a vote. HB 2569 stops elections officials from receiving private grants to help them run elections or register voters, even if the Legislature provides inadequate funding for elections administration and voter registration. Election officials have used grant funds to purchase equipment used to provide timely and accurate election results. If enough people sign this petition, the voters will decide whether election officials should be allowed to accept private grants. "
